## Bioengineered Statement

S&F Foods, Inc. has gathered the required information necessary to determine which manufactured products contain ingredients that may be sourced from a bioengineered material. It should be noted, formulation and ingredient order of predominance impact the decision-making process as does the recognized threshold that allows for the inadvertent or technically unavoidable presence of a bioengineered substance – up to 5% in each ingredient. In addition, highly refined products are exempt from the Standard disclosure. S&F Foods, Inc. has concluded that any School Foodservice item currently manufactured that has a bioengineered ingredient will be identified with the following statement; *Contains a bioengineered food ingredient*. This item does not.
